

Dear Readers,

### **A New President of the IVMA with Renewed Enthusiasm for our Journal**

**T**he Israel Veterinary Medical Association has elected a new President, Dr. Michael Etinger. On behalf of the Editorial Board, we wish him the best of luck and success in this endeavor.

Dr. Etinger has shown his full appreciation for the Israel Journal of Veterinary Medicine, and has already taken steps to improve and expand its activities. In this regard, the journal will be reorganizing the “Editorial Board” of the IJVM. I am full of hope that the journal, which is widely read all over the world, will gain further prominence.

I thank all the contributors for their articles and the editorial board for their support. I have always felt that Israel needs a journal of a high standard, and in this spirit, I have managed the journal. Clearly, the attainment of a highly respectable scientific journal will be achieved largely by the participation of all Israeli veterinarians and especially those participating in research. The publication of high quality articles by Israel veterinary authors is the essence to the success of our journal.

Again, I urge veterinarians to publish their articles in the IJVM.

*Yours sincerely,*

**Dr. Trevor (Tuvia) Waner**

Editor-in-Chief Israel Journal of Veterinary Medicine

## Letter to the Editor

Dear Dr. Waner,

Irma Revah (from the IVIS) just contacted me and sent a copy of the obituary that you published in the March issue of IJVM. It was a beautiful obituary and obviously felt from the heart. My dad would be so honored. I will share it with my two brothers.

*All the best to you and your family,*

*Sincerely,*

**Dan Carmichael**
